PROFESSIONAL SUMMARY

Innovative Web Developer with expertise in front-end and back-end technologies including HTML5, CSS3, JavaScript, React.js, Node.js, and responsive design. Proven track record of developing user-centric websites and web applications that enhance user experience and drive business growth. Skilled in Agile methodologies, cross-browser compatibility, and performance optimization with strong problem-solving abilities and attention to detail.

TECHNICAL SKILLS

Programming Languages: C, C++, Java, Python, JavaScript

Frontend: React.js, Next.js, Angular, Bootstrap, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, Flask, PHP, WordPress, Spring Boot

Database: MySQL, PostgreSQL, MongoDB

Tools & Platforms: Git, GitHub, Figma, REST APIs

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Authentication & Authorization, Responsive Design

PROFESSIONAL EXPERIENCE

Web Developer Intern | Sysroot Solution

April 2025 – Present

- Developed and deployed 8+ responsive web applications using HTML5, CSS3, JavaScript, and React.js, achieving 99.8% uptime and improving user engagement by 42%.
- Optimized website performance through code splitting, lazy loading, and image optimization techniques, reducing page load time by 55% and increasing Google PageSpeed score from 62 to 94.
- Collaborated with a cross-functional team of 6 members using Agile methodology to redesign the company website, resulting in a 65% increase in mobile traffic and 38% improvement in conversion rates.
- Integrated 12+ RESTful APIs and executed Git version control managing 250+ commits, while debugging and resolving 60+ critical issues that enhanced application stability by 50%.

PROJECTS

Salon Booking System – Full-Stack Web Application | GitHub | Live Demo

React.js, Node.js, Express.js, MongoDB, RESTful APIs, JWT Authentication, CSS3

- Built an end-to-end salon booking platform with role-based access for customers, staff, and administrators, managing 1000+ appointments and serving 300+ registered users.
- Developed RESTful API backend using Node.js and Express.js with MongoDB database, handling 5000+ daily API requests with 99.5% uptime and optimized query performance.
- Implemented JWT-based authentication and authorization system with secure password hashing, protecting user data and ensuring secure access control.
- Created a dynamic booking calendar with availability management, automated email notifications, and real-time slot updates, reducing booking conflicts by 85% and increasing customer satisfaction by 40%.

Melon Chat – Real-Time Discussion Platform | GitHub | Live Demo

Next.js, React.js, Tailwind CSS, Clerk Authentication, Stream Chat API, JavaScript

- Developed a full-stack real-time chat application using Next.js and Stream Chat APIs, enabling 500+ concurrent users to communicate instantly across 20+ topic-based discussion channels.
- Executed secure authentication and session management using Clerk with protected API routes, achieving secure access control and preventing unauthorized access.

- Designed responsive user interfaces with Tailwind CSS and modular React components, ensuring seamless user experience across desktop and mobile devices with 95% cross-browser compatibility.
- Integrated WebSocket connections for real-time messaging functionality, reducing message latency to under 100ms and supporting group discussions with 50+ participants per channel.

CERTIFICATIONS & ACHIEVEMENTS

- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate – April 2025
- Deloitte Cyber Job Simulation, Forage – June 2025
- Smart India Hackathon 2024 Internal Round Participant – July 2024

ADDITIONAL INFORMATION

Languages: English, Hindi

Interests: Artificial Intelligence, Backend Development, Problem Solving

EDUCATION

B.Tech in Computer Science and Engineering	2023 – 2027
Amity University Jharkhand CGPA: 7.5	
Class XII (Senior Secondary) – Gossner College, JAC Board	76% 2023
Class X (Secondary) – St. Columbus School, CBSE	72% 2021
